

MS Plan-B Student Progress Form II

Approval of MS Plan (Coursework, Research Project, Committee Selection)

The student submits a proposal to his or her committee explaining the academic focus of the MS, outlining what courses he or she plans to take, and specifying the type of research activity he or she will participate in, along with a brief description in the box below. The Research project can be accompanied by up to 6 credits of GG 699. Students will present their results in (a) a written report or technical paper and (b) and oral presentation. Projects are advised by a Department of Earth Sciences faculty member advisor and 2 other Plan-B committee members. The committee make up requires approval of the Department Graduate Chair.
