0500 Commence 3-hourly CTD casts

27 Feb.
1600 Recover Sediment traps
1900 Depart HOT site

28 Feb.
1200 Arrive Snug Harbor

Narrative:

HOT-4 was the first cruise on the SSP KAIMALINO. The cruise was initially delayed for one day because the electric current required to start the hydrographic winch was more than the KAIMALINO's breaker-box could supply. The self-starter on the winch was eventually bypassed, and the rest of the cruise was nominal.
