OCN 201
Atlantis Submarine Field Trip Worksheet

1. What is the first color that disappears when under water? At approximately what depth does this occur?

2. How is the submarine powered?

3. How deep can the sub go? How deep did you go on this dive?

4. There are three artificial reefs on the dive. What is each one made of?

5. Which reef attracted the greatest abundance of fish? Which one attracted the greatest diversity of fish?

6. Name and briefly describe (color, size, etc.) three kinds of reef fish that you saw during the dive. You can draw them on the back if you wish.

7. Did you see any marine mammals (turtles, dolphins, whales, etc.)?

8. Was the dive worth your \$20? Why or why not?
