If you are visiting the Aquarium alone, make sure you have your worksheet stamped by the people at the ticket counter!

Waikiki Aquarium Field Trip Worksheet

1. Are corals animals or plants? Explain why.

2. Name at least three threats to coral reef communities in Hawai`i today.

3. How do squid propel themselves through the water? Describe the way they developed to help them avoid predators.

4. Describe how Hawaiian fishponds worked.

5. What led Hawaiian monk seals to the brink of extinction?

6. Name two species from the following groups, present at the aquarium:
 - (a) Cnidaria (corals, jellyfish, hydroids)
 -
 -
 - (b) Echinoderms (urchins, sea-stars, brittle stars, sea cucumbers)
 -
 -
 - (c) Molluscs (snails, bivalves, cephalopods)
 -
