RE: Policy Statement on Assignment of Authorship

At its last meeting (10/18/90), the Graduate Council approved the following statement for inclusion in the Catalog, GA Handbook, and Graduate Division's Thesis/Dissertation Guidelines.

"It is the joint responsibility of the graduate student and the faculty they work with to discuss their expectations concerning assignment of authorship of publications resulting from theses, dissertations, or other collaborative research projects."

You may wish to include this statement, or a stronger one particular to your field, in the materials provided to your graduate students.
