

Drought Monitoring and Knowledge Exchange Meeting

The National Drought Mitigation Center, USDA Southwest Climate Hub and Forest Service, Clark University, and East-West Center invite you to join us for a day of learning about drought monitoring tools and collaboration/partnership opportunities.

Meeting goals:

- Increase awareness of the United States Drought Monitor (USDM)
- Enhance drought monitoring coordination
- Build collaborations and encourage partnerships

Register and learn more:

<https://forms.gle/f9JKUg5rTJYPfWay9>

Virtual option available. Space is limited for the in-person sessions.
