# HOMEOWNER'S HANDBOOK TO PREPARE FOR NATURAL HAZARDS

By Dennis J. Hwang and Darren K. Okimoto

Designed specifically for homeowners, this is a critical resource for anyone wanting to reduce the risks to family and property from the threats caused by natural hazards.

The handbook covers basic information on emergency preparedness and evacuation planning in the event of a tsunami, hurricane, earthquake or flooding event, and steps to take in advance to protect your property. It was prepared with the assistance of numerous state and federal agencies as well as private companies and presents the information in a comprehensive yet easy-to-read format.
