TO: Fiscal Administrators

FROM: Barbara Kawamoto 
Interim Director of Financial Management and Controller

SUBJECT: Retirement of the IBM Mainframe and FMIS

The IBM mainframe, which hosts the FMIS application, is scheduled for permanent retirement by ITS on October 31, 2013.

In preparation for this, ITS has migrated all FMIS data to Oracle tables. Only FMO and ORS will have access to the FMIS data via the FMIS Datamart and Discoverer reports. We recommend you extract any data that you may require before October 31, 2013.

Additionally, ITS has recreated all PageCenter folders on PageCenterX and moved FMIS reports into them as appropriate.

Please contact me if you have any questions.
