SOEST Hosts 12th Open House

Honolulu, HI - Exploding volcanos! Powerful tsunamis! Undersea exploration! These are just a few of the fascinating and educational hands-on exhibits being offered at the 12th biennial SOEST Open House on October 25 and 26.

On Friday, October 25 the School of Ocean and Earth Science and Technology (SOEST) at the University of Hawai‘i at Mānoa will open its doors to over 5,000 school children who are scheduled to attend the event. Due to the overwhelming response from the schools, all available time slots were filled and the remaining schools are now on a waitlist.

The Open House continues on Saturday, October 26 and is open to the public. Kids of all ages will enjoy presentations, hands-on activities, visit state-of-the-art laboratories, hear about cutting-edge research from the scientists who are making the new discoveries, and much more!

Over 6,600 people attended the last SOEST Open House held in 2011. This year marks SOEST’s 25th anniversary and promises to be even more exciting than ever. Don’t miss out!

WHEN
Friday October 25th, 8:30 am – 2 pm (Schools)
Saturday, October 26th, 10 am – 2 pm (Public)
