$$Z' = \Delta \sigma \left[ \frac{a^2}{z * 3} \right]$$

$$Z' = \Delta \sigma \left[ \frac{-a^2}{z^{*3}} \right]$$

Equation (5c) in the paper is written as  $Z' = \Delta \sigma \left[ \frac{a^2}{z^* \, 3} \right]$  This expression is incorrect and should be replaced by  $Z' = \Delta \sigma \left[ \frac{-a^2}{z^* \, 3} \right]$  This error does not affect the subsequent material in the paper.
