Budget and Resources Committee

The Budget and Resources Committee of the Department of Oceanography is charged with developing and maintaining a strategic plan for financial and other resources of the department. Once the plan is developed and accepted by the faculty, the committee's responsibility is to monitor the implementation of the plan and to seek out sources of financial and other support for the department's research and teaching programs. The committee also serves to advise the Chair with respect to financial decisions and matters.

The committee will consist of three members of the faculty, other than Division Heads, and the Chair of the Department of Oceanography. The committee is appointed by the Chair and approved annually by the faculty as a whole.
