Aloha and welcome to UH! We are happy to have you in SOEST. I have been working in SOEST Student Academic Services since 2020 and was previously an Academic Advisor in the College of Natural Sciences. Prior to UH, I worked in the Hawaii Department of Education where I was a School Counselor for 11 years.

I was born and raised here on O'ahu and grew up in Aiea. I attended Sonoma State University where I have a BS in Business Administration degree in Human Resource Management and a MA in School Counseling. I enjoy spending time with my family, looking for a good deal, or trying new restaurants.

While my background might not be in STEM, I can successfully help students navigate their college experience with research and enriching opportunities.

I look forward to being a part of your academic journey!
